

Desktop Virtualization: Nomenclature

Desktop Virtualization

Suite of Technologies

- Desktop Streaming
- Application Virtualization
- Terminal Services

VDI

Virtual Desktop
Infrastructure

Industry Terms for VDI:

- Gartner: "Hosted Virtual Desktop" (HVD)
- IDC: "Centralized Virtual Desktop"

- End-to-End Architecture& Validation
- Supporting Rich Media /UC
- Enhanced Security
- ApplicationAcceleration
- POE / Energy Wise

HVD/VDI Market Transition Is Accelerating

A broad deployment enabled by the next generation virtual workspace

Global hosted virtual desktop (HVD) market will accelerate through 2014

70 million units or 15% of Enterprise desktops/laptops*

In 2011 47% of Enterprises initiated Desktop Virtualization projects

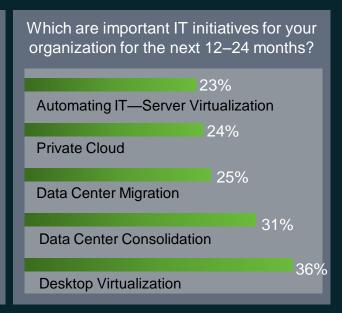

Only 3% desktop penetration*

7 Billion new wireless devices by 2015

* Gartner Group

Voice, Video, Virtual Desktop Challenge

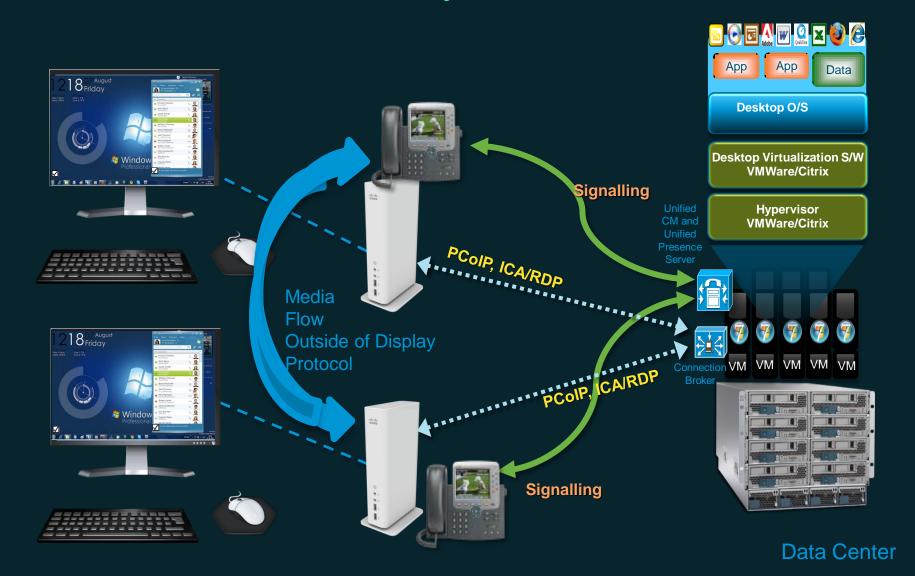

- Unusable experienceHairpin effect
- Increased cost and resource utilization
- Bandwidth explosion
- Heavy virtual machine processing in data center

VXC Feature Comparison

	VXC 2100 Series	VXC 2200 Series	VXC 4000*	VXC 6215*	Cisco Cius
Form Factor	"Backpack" Integrated	"Tower" Standalone	PC Software	"Tower" Standalone	Enterprise Tablet
Availability	Shipping	Shipping	Q4 CY 2011	Q1 CY 2012	Shipping
Platform	Zero Client	Zero Client	Win7, XP	Linux	Android (x86)
HVD Protocol Support	2111 – PCoIP 2112 – HDX,RDP	2211 – PCoIP 2212 – HDX,RDP	Citrix XenDekstop, VMware View	HDX, RDP, PCoIP	Citrix XenDekstop, VMware View
UC Protocol Support (add on)	N/A	N/A	Software Appliance	HDX, RDP (Q4CY11) PCoIP (Q1CY12)	N/A
UC Client Support*	CUPC, Connect	CUPC, Connect	CUPC, CUCILync	CUPC, CUCILync	Native
Voice	IP Phone 8961, 9951, 9971	N/A, can be used with IP Phone	Yes	Yes	Yes
Video	IP Phone 9971, 9951	N/A, can be used with IP Video Phone	No	Yes	Yes
Monitor Support	Single or Dual, 1920x1200	Single or Dual, 1920x1200	Varies based on underlying HW	Single:2560x1600 Dual:1920x1200	Single Mirror, 1024x600 (on the roadmap for dual monitor support)
PoE	PoE	PoE	N/A	No	PoE
Encoding & Decoding	Via IP Phone	Via IP Phone	Audio only. Video on the roadmap.	Standard Video HD Capable*	HD Capable (720p)

Cisco VXC Differentiators

- VXC 21xx series innovative form factor integrates w/ IP phone that reduces real estate and simplifies management
- Power over Ethernet (POE) with support for EnergyWise delivering energy savings and compliance to green initiatives
- Thin Client endpoint that unifies voice, video and virtual desktop
- Software appliance option that leverages existing PC investments
- Mobile endpoint w/ voice, video and virtual desktop in a unique centrally managed enterprise tablet
- Cisco Validated Designs (CVD) that provide blueprints for successful deployments and lower TCO
- Cisco Technical Assistance Center (TAC) Allied Solution Support for end to end solution

VXI Phase 2.5 Component Summary

Based on Cisco Architectures

VXI Validation Service VXI AS

VXI Endpoints portfolio

- Cisco VXC 21xx and 22xx
- Cisco Cius
- Cisco VXC 4000
- Cisco VXC 6215
- Cisco VXCM

UC Applications
